REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

While Campbell shows an article turning apparatus with first and second stations, a rotary base on a stationary shaft, a suction box, and a plurality of first and second oppositely rotating load-carrying tables arranged alternately with each other at regular intervals along the peripheral zone of the base, they are rotated by gears rather than belts trained around a portion of the shaft of the base and a portion of the load-carrying tables as required by the independent claim.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
